What is GandhiTopia?

GandhiTopia (www.gandhitopia.org) is a social network on Ning (www.ning.com) created by the GandhiServe Foundation (www.gandhiserve.org). GandhiTopia is a forum for the Mahatma Gandhi web community. In other words: It's **the** meeting point for Gandhian students, scholars, activists and institutions on the internet. The platform provides news, events, media and research on Mahatma Gandhi, Peace and Nonviolence. It is **your** forum! Here you can share information, questions, material, and connect with the Gandhian web community. No matter whether you're an activist, student, academic or media person: on GandhiTopia you find what you're looking for in a state-of-the-art info pool and communication tool.
